WORK EXPERIENCE

SENIOR UX DESIGNER – Guidewire Software Inc.
MAR 2020 – PRESENT

I work on different solutions ranging from risk analytics tools to core underwriting systems for underwriters of insurance industry. My work primarily focuses on simplifying different underwriting workflows for Policy Center which is one of our core products.

USER EXPERIENCE DESIGNER – SAP Labs, LLC.
MAY 2018 – MAR 2020

At SAP Service Cloud, I mainly worked on solutions for customer service call centers. I also led the design for a few shared service apps for the entire portfolio of products. My work spans from user research and design to assisting the usability testing for gathering feedback on the designed solution.

UX DESIGN INTERN – SAP Labs, LLC.
OCT 2017 – MAY 2018

I worked on various projects for SAP Cloud for Customer CRM solution, ranging from Machine Learning for Service Cloud to a Guided Selling application for Sales Cloud. I also worked on framing the Design System guidelines for the entire line of products.

UI DESIGNER AND PROTOTYPER – Northeastern University
JUL 2016 – OCT 2017

I worked on designs and front-end web prototypes (HTML, CSS, JS) for different educational games, and solutions for the university.

UI DESIGN INTERN – Loginext Solutions
MAR 2014 – NOV 2014

I worked on a product for logistics solution. I assisted with designs and prototypes for client and employee facing dashboards.
