EXPERIENCE

ROKU Inc.

Sr. UX Product Designer

Aug 2023 – Present

- Led end-to-end design for consumer web experiences including e-commerce, account management, and subscription lifecycle flows.
- Redesigned the web content discovery experience, leading to a 6x increase in interaction rates and 2.9x improved user engagement.
- Led the redesign of the account management experience, improving usability and reducing account-related customer support requests by 3x.
- Led AI initiatives within the UX team to evaluate, prototype, and operationalize tools like Builder and Claude Code for design and front-end development workflows.

UX Product Designer

Jan 2022 – Aug 2023

- Designed and scaled web platforms including Roku Launchpad and Developer Portal serving streaming and hardware partners.
- Simplified complex search feed publishing workflows, accelerating partner onboarding and saving partner managers approximately 4 hours of operational effort per publishing cycle.
- Collaborated with cross-functional consumer & enterprise teams to align platform capabilities.

Guidewire Software Inc.

Senior UX Designer

Mar 2020 – Jan 2022

- Led UX initiatives for risk analytics and underwriting systems within Policy Center.
- Redesigned the underwriting risk assessment tool, driving a 20% increase in search traffic and an 83% increase in report downloads.
- Conducted user research sessions and workflow analysis to identify usability gaps and streamline enterprise tools.

SAP Labs

UX Designer

Oct 2017 – Mar 2020

- Contributed to SAP Service Cloud, designing solutions for customer support teams.
- Consulted on ML-driven service features, Guided Selling (Sales Cloud), and microservices-based applications.

Northeastern University

UI Designer & Engineer

Jul 2016 – Oct 2017

- Designed and developed front-end prototypes for interactive educational tools and games.

EDUCATION

Northeastern University (Boston, MA)

Master's in Digital Media

2015 – 2017

University of Mumbai (India)
